

CWS

Fort Collins

Join CWS Fort Collins as a **Community Partner** as we continue to resource self-sufficiency and help new Americans thrive in Colorado. Since its founding in 1946, Church World Service has supported refugees along every step of their arduous journeys to safety and justice. Our program expanded into Colorado last year and continues to walk with refugees and immigrants through increasingly difficult circumstances. This summer we invite you to be part of our journey as we celebrate the cultures of our neighbor Coloradoans.

**June 21 Cultural Festival and Open House
In Old Town Fort Collins
Opera Galleria, Noon-4PM**

Our Purpose: CWS Fort Collins welcomes refugees, immigrants, and asylum-seekers from around the globe into lives of freedom, hope, and opportunity through direct services, advocacy, leadership development, and relationship-building in our community.

Your Help: Our growth is funded by your partnership. Our local office was invited to work in Fort Collins and through Colorado by our State Office of New Americans and local partners. In the midst of federal program suspensions and funding cuts, we are redefining how we continue providing meaningful support as people work to rebuild lives, just as many of us have, as migrant Coloradoans.

Our biggest engagement activity of the year is a **Cultural Celebration and Open House**. Last year 150-200 people gathered in Old Town Fort Collins to join a celebration of culture through food, crafts, dance and song. This is a great platform to showcase your community commitment during the event and through our promotional and online material. You are invited to be part of our events and support our local CWS office as we continue to empower our newest neighbors to build new lives in peace and security, providing up to 5 years of service and support.

Your support will allow our small team to continue offering support to people in legal matters, employment and language skills. Refugees and immigrants are strong contributors to our state economy, and your support can not only showcase your firm, but builds our state economy and the lives of everyone active in that economy.
