

STOP ICE OVERREACH IN COLORADO

September 10, 2026 | 5 PM Virtual Briefing

Amendment 81 will permanently amend the Colorado Constitution and override current state laws limiting ICE authority in Colorado.

Under Amendment 81, state and local law enforcement are required to notify Immigration and Customs Enforcement (ICE) when they charge Coloradans with certain crimes and before a court has decided if that person is guilty or not.

Amendment 81 opens the door for all Coloradans, including citizens, to be targeted by ICE based on how they look or talk.

Join us at 5pm on September 10th to learn more about what's at stake and our path to defeating Amendment 81.
